📁 FEATURED PROJECTS

AI Product Manager Workspace - 🌐,

Demo Link : (<https://rajesh006-jerry.github.io/PM-WORKSPACE/pm-workspace.html>)

- Built an all-in-one PM dashboard for roadmap management, user personas, RICE prioritization, Kanban tracking, customer feedback, analytics, and release notes.
- Designed the workspace to reduce tool switching and streamline product operations for AI and SaaS product workflows.
- Added decision-support structure around prioritization, workflow visibility, and product documentation for better execution.

Pocket Shopping E-commerce Website - 🌐,

Demo Link : (<https://rajesh006-jerry.github.io/Inventory-management-system/Pocket-Shopping.html>)

- Designed an e-commerce and inventory management product with product discovery, cart, checkout, reviews, and order tracking.
- Defined admin workflows for products, orders, customers, and stock monitoring to improve operational visibility.
- Built dashboard-style views to support business decision-making and inventory control.
